Special features BIM

Construction period
3 years 2 months

Start work
05-2015

End of work
07-2018

Futuristic and dynamic are the best words to describe this new town hall. It is the new workplace for 550 employees of the City of Hasselt and its PCSW. A unique feature of this project is the oblique mirror wall that we created in a short period of time and with minimal inconvenience to the surrounding area. The new, seven-storey building also has a glass connection to the protected gendarmerie barracks, which we restored to their former glory. We went far beyond the legal standard for sustainability.
