11-2025

Project website
Herinrichting Vanderveldesquare en Albert I-square

Grootschalige werken voor de herinrichting van de Vanderveldesquare, het Albert I-square en een deel van de Bergensesteenweg. Dit project moet de omgeving veiliger, groener en aangenamer maken door van versnipperde zones (Vanderveldesquare, Albert-I-square, Bergensesteenweg) om te vormen tot één coherente en kwaliteitsvolle openbare ruimte die Kuregem beter verbindt met de andere wijken.

Willemen Infra is a leading, Belgian road construction company with a regional presence in both Flanders and Wallonia. An important asset is that we have all aspects of the construction process under our own management and thus fully control the execution. Moreover, our team of 1,000 well-trained and experienced employees are willing to work at night and over the weekend to make sure they get everything done in time. In addition, thanks to our own COPRO and CSC-certified production and recycling sites, we are one of the leading producers for asphalt and road concrete.
