On a site of just over 10 hectares along the E313 motorway, we built a 50,000 m² distribution centre with 62 loading docks. From this location, CASA shops have been supplied throughout Europe since 2017. Thanks to a space that can accommodate 65,000 pallets, the company can save 5,000 freight trips a year. In addition to the warehouse and the necessary technical areas, the new building comprises 5,000 m² of offices spread over four floors.
