Civil Engineering
Bridges

Contractors
Franki

location
Rue de la Petite Suisse
7100 La Louviere Belgium
Hainaut BE

Client
Sofico, SPW

Start work
03-2015

Infrastructure improvements and replacement of superstructure.
Description:

- Two parallel skew bridges, comprising 2 x 6 rebuilt girders with variable inertia (PRS)
- Length: 200 metres, with 2 x 50-metre approach spans and one 100-metre central span over a single waterway
- Width: 2 x 19 metres.

Work involved:

- Removal of asbestos from the structure
- Raising the deck/adjustments/replacement of supports
- Reinforcing the metal structure by adding flat components
- Reconstructing the concrete decking to include cantilevered walkways
- Fixing the bridge in its post-stress position.
