#### Construction period

2 years 4 months

#### Start work

09-2016

#### End of work

01-2019

GAZO is the redevelopment of the Gazometer site in the neighbourhood of the station. We built a new welfare campus on the wasteland that had been left fallow for many years. This multifunctional complex is entirely dedicated to the child and includes a primary school with a sports hall, a youth centre with a party room, rehearsal rooms, a youth centre with a multipurpose hall, offices for Kind & Gezin (Child & Family) and other services for child welfare, 15 apartments, and an underground car park. We have built the 26,000m<sup>2</sup> complex with particular attention to nuisance reduction in the busy neighbourhood.

### Willemen Construct

Boerenkrijgstraat 133
