a2o architecten

Temporary partnership

Kumpen, Cordeel

Surface area above ground

14 000m²

Construction period

1 year 10 months

Start work

02-2015

End of work

12-2016

Willemen Construct realised several projects as part of the 'Schools of Tomorrow' catch-up project. The architectural eye-catcher is undoubtedly the new campus for Hast. Thanks to an extension of the existing campus of the Heilig Hart Technical Institute, the necessary space was created to also allow the Sint-Angela students to move to this location. Apart from the high-profile architecture, the tight planning and high quality requirements for the exposed concrete were the major challenges here.
