## Labo building BASF - Antwerp

### Project Details

**Activities**  
 Buildings  
 Industrial & logistics

**Contractors**  
 Willemen Bouw

**Location**  
 Scheldelaan 600  
 2040 Antwerpen Belgium  
 Antwerpen BE

**Client**  
 BASF Antwerpen

**Special features** [BIM](#)

**Construction period**  
 1 year 5 months

**Start work**  
 01-2019

**End of work**  
 06-2020

Franki Construct has built a new laboratory in the port of Antwerp on the BASF site, which is the largest chemical production centre in Belgium.

The building measures 61 m x 35 m and is 16 m high. The ground floor and first floor are made from concrete. Columns, beams, arches and concrete façade panels are used on the ground floor. The “technical floor” is a steel construction, and the first and second floors have metal cladding. The laboratory is equipped with a green roof.

### Willemen Bouw

Boerenkrijgstraat 133
