Railway infrastructure works - Uccle

Project Details

Activities

Civil Engineering
Bridges
Railway infrastructure & stations
Road construction
General roadworks

ContractorsWillemen Bouw

location

Horzelstraat 300 1180 Ukkel Belgium Brussels BE

Client Infrabel

Engineering Office TUC Rail

Construction period 3 years 5 months

Start work 01-2011

End of work 06-2014

The project consisted of infrastructure work along the track bed platform where railway lines L124 and L26 intersect. Several bridge decks were renovated and noise barriers installed, including 2,000 m² of green walls. For the Moensberg station at Uccle, new platforms have been built. Simultaneous with these main works diverse road, bedding, demolition, earth- and sewerage works were performed.

Some figures:

Earthworks: 50,500 m³.
Steel delivered: 680 tonnes.
Concrete TPG: 8,800 m³.
