Price

€55.000.000

Architects

Altiplan
Estudio Lamela

Temporary partnership

Willemen General Contractor, Cordeel

Engineering Office

CES (speciale technieken)

Construction period

2 years 6 months

Start work

03-2014

End of work

09-2016

Standing 107 metres tall with 33 storeys, the Astro Tower is the fifth tallest building in Brussels and the tallest passive building in Belgium. The Astro Tower's offices, measuring a spacious 35,000 m² and dating back to 1974, have been redesigned and optimised. The façade was given a brand-new look in blue mirror glass. Three additional storeys were built atop the tower to house the technical rooms. There is a five-storey car park underneath the building. At the end of 2016, 1,200 employees moved into the building.
