Architects M+W Group

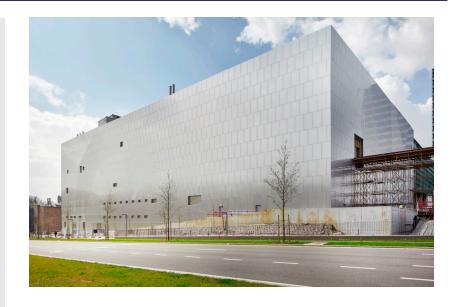

Temporary partnership Willemen General Contractor, Aannemingen Janssen, Van Laere

> Engineering Office Abetec

Construction period 11 months

Start work 12-2014

End of work 11-2015

Thanks to this state-of-the-art laboratory, Leuven-based nanotechnology company imec, together with its global partners, is able to carry out further research into new technologies to make microchips even more powerful, more efficient, smaller, and more energy-efficient. The cleanroom is equipped with the latest gadgets and a 'waffle table', so that vibrations are not possible. This is important because nanotechnology requires extreme precision. In addition, the cleanroom cannot contain any dust particles. That's why there's constant air circulation.

Willemen Bouw

Boerenkrijgstraat 133 2800 Mechelen, Antwerpen (Belgium) tel +32 3 450 77 00 bouw@willemen.be www.willemen.be

Willemen Bouw was established on 30 April 2025 through the merger of Willemen Construct, Cosimco, Franki Construct and Tools.
