Kern architecten

Start work

08-2023

For the MERU Foundation (Maharishi European Research University), we are constructing 3 new buildings on their campus in Vlodrop. Meru is a campus in the Netherlands that offers courses, retreats and events to the global Transcendental Meditation community.

The 3 buildings will be erected simultaneously. They are:

- MERU operating building: a facility building for support services;
- MERU resident building: a residential building with 72 studios;
- MERU apartment building: a complex with 29 flats.
