04-2015

Project website

[Tuin Van Myra](#)

Producing 58 luxury serviced residences (up to 117 m²) across two buildings, including a lounge bar, sauna and jacuzzi, physiotherapy, a park garden and a brasserie. The complex also includes a lobby, nursing station and underground garage. The project, named 'Tuin of Myra' (Garden of Myra), was built on an enclosed area in the centre of Sint-Niklaas. The operation is managed by Flexlife, a young company linked to Senior Assist, which takes care of everything for residents and owners. Cosimco delivered the flats ready to move into.
