#### Engineering Office

AB Associates, RACO

#### Special features [BIM](#)

#### Construction period

1 year 4 months

#### Start work

03-2019

#### End of work

07-2020

The brand-new Junior Campus newbuild offers 6,000 m<sup>2</sup> of space over four floors. It houses 12 spacious technical classrooms, 13 normal classrooms, two training kitchens, three laboratories, a staffroom and a home economics room. The building stands out because of its sleek, contemporary design, and because of a few fun architectural nods to the existing educational infrastructure. On top of that, the project is an absolute textbook example in terms of BIM.
